MTCT, mother-to-child transmission; na, not available.

The regional syphilis data is from 2014 and the number of reporting countries contributing to the regional estimate is shown in ().

13 The reporting countries in the South-East Asia Region are Sri Lanka; and in the Western Pacific Region: China, Cook Islands, Fiji, Malaysia, Mongolia, Nauru and Tonga.

Data:

¹ Nationally representative serosurvey;

² HBsAg estimates from Goldstein-based mathematical modelling among 5 year olds in 2015 (37);

³ Convenience samples in hospitals or clinics with catchment areas covering most of the country/area;

⁴ Censuses that covered most eligible population;

⁵ Convenience samples that were not representative of the country/area;

⁶ Estimates from mathematical modelling among children born in 2012 when they reach the age of 5 (34)
