A HIV prevention pill has been approved in the United States for HIV negative people to reduce their risk of getting HIV.

The pill has to be taken once every day and is less effective if not taken daily.

People who take this pill must also see their healthcare provider every three months for followup visits.
If This HIV Prevention Pill Is Approved In Singapore, How Likely Would You Take The Pill?
N = 1223

- Very likely: 46%
- Likely: 34%
- Unlikely: 13%
- Very unlikely: 7%
LET’S TALK ABOUT THE COST OF THE HIV PREVENTION PILL

Would You Pay $150 Per Month?

N=977

- Yes, the price is affordable: 38%
- No, it is too expensive: 43%
- Don't know: 19%
How About If The Cost Of This HIV Prevention Pill Increases To $200 Per Month.
Would You Still Be Willing To Pay For This Pill?
N = 371

- No, it is too expensive: 23%
- Yes, the price is affordable: 67%
- Don't know: 10%
How About If The Cost Of This HIV Prevention Pill Is Lowered And It Costs $100 Per Month.

Would You Be Able To Afford It?
N = 606

Yes, the price is affordable: 45%
No, it is too expensive: 33%
Don't know: 22%
