Bautista eyes 2nd sexual health clinic for men

The Quezon City government has announced plans to open a second sexual health clinic that will provide services for men who contracted sexually transmitted diseases such as the human immunodeficiency virus (HIV) infection, which could develop into full-blown acquired immunodeficiency syndrome (AIDS).

“This is a fitting testament that the city government is concerned with addressing the needs of people living with HIV,” Mayor Herbert Bautista said in a statement.

The facility, which will expand the current Klinika Bernardo located in Caloocan, will be built near the town plaza in Navotas. It will serve as a diagnostic, treatment and referral facility for male patients with sexually related diseases.

The city government said it will be equipped with HIV testing facilities and will be operated by medical and clinical personnel of the city health department.

City health officials said the sundown clinic – which will operate from 3 p.m. to 11 p.m. – will start operating later this year.

Rolly Cruz of the city health department said the city government is investing some P15 million for its HIV/AIDS control program in 2014.

Last year, the city government passed an ordinance that will penalize employers who will discriminate against employees who have HIV infection or AIDS.

The law seeks to prevent discrimination among employees or applicants for employment who are “perceived, suspected or confirmed to have infected with HIV.”

Based on the measure, the licenses or permits of employers or businesses found guilty of committing discriminatory acts will be revoked, said the ordinance.

The ordinance also prohibits employers from requiring applicants or current employees from taking HIV tests, adding that “employers cannot simply equate HIV with disability.”

It defines discrimination as any act that may degrade human dignity, including unequal treatment of employees or applicants perceived, suspected, or confirmed to have infected with HIV. – Janvic Mateo
Quezon City Investment Plan for AIDS

Investment Targets for Prevention and Control of STI, HIV and AIDS in Quezon City, 2012-2016

90% of Filipinos living with HIV knowing their HIV status.
90% of Filipinos who know their HIV+ status on treatment.
90% of Filipinos on treatment with suppressed viral loads.

Agency/Organization Action Plan
AIDS Ordinance 2016

Republic of the Philippines
QUEZON CITY COUNCIL
Quezon City
13th City Council

ORDINANCE NO. SP- 250, s. 2016

AN ORDINANCE AMENDING ORDINANCE NO. SP 193, S. 2003, OTHERWISE KNOWN AS "THE HIV, AND AIDS PREVENTION AND CONTROL AND APPROPRIATIONS FUND OF THE AMOUNT OF FIVE MILLION PESOS (₱5,000,000.00) FOR THE IMPLEMENTATION THEREOF."

Introduced by Councillor ERNESTO C. LAURIA

WHEREAS, the Acquired Immune Deficiency Syndrome (AIDS) is a condition that recognizes no territorial, social, political and economic boundaries for which there is no known cure; The gravity of the AIDS threat demands strong State action today, thus, the Quezon City Government shall strictly adhere to the following local, national and international policies and principles:

1. Scope of Ordinance

The scope of this Ordinance shall include the promotion of the principles embodied in the Antidiscrimination Ordinance No. SP- 2115, S. 2013, as well as the protection of the rights and interests of persons infected with HIV and AIDS.

2. Purpose of Ordinance

The purpose of this Ordinance is to provide a framework for the implementation of measures to address the challenges of the AIDS epidemic in the Quezon City.

3. Application

This Ordinance shall apply to all sectors of society, including the government, private sector, and civil society.

4. Enforcement

The enforcement of this Ordinance shall be vested in the appropriate government agencies and officials.

5. Penalties

Failure to comply with the provisions of this Ordinance shall be meted with appropriate penalties as provided by law.

6. Repeal of Prior Ordinance

All prior ordinances and regulations conflicting with this Ordinance are hereby repealed.

7. Effectivity

This Ordinance shall take effect immediately upon its approval.

Anti-discrimination 2013

IMPLEMENTING RULES AND REGULATIONS
OF ORDINANCE NO. SP- 2115, S. 2013

"AN ORDINANCE PROHIBITING ALL FORMS OF DISCRIMINATION OF PERSONS PERCEIVED OR SUSPECTED OR EVEN FOUND TO BE INFECTED WITH HUMAN IMMUNODEFICIENCY VIRUS (HIV) IN WORKPLACES WITHIN THE TERRITORIAL JURISDICTION OF QUEZON CITY"

RULE I

Preliminary Provisions:

Article 1. TITLE: This implementing rules and regulations shall be known as the "Implementing Rules and Regulations of the Anti-discrimination within the Workplaces against Persons Perceived or Suspected to be Infected with HIV and AIDS."

Article 2. PURPOSE: Pursuant to Section 8 of Ordinance No. SP- 2210, S. 2013, these Implementing Rules and Regulations (IRR) is hereby promulgated as a principle and comprehensive guidelines, procedures and standards for implementation of Ordinance No. SP- 2210, S. 2013 to facilitate compliance thereto and achieve the intent of the Ordinance.

Article 3. COVERAGE: These Rules and Regulations shall apply to all natural and juridical persons, including their representatives and/or agents, operating within the territorial jurisdiction of Quezon City, whether public or private, who undertake, recruit workers, hiring, promoting, training, compensations or any other terms, conditions or privilege of a person who is an employee or applicant. It shall cover all applicants and employees, regardless of their employment status, including trainees of the after-employment activities, who are perceived, suspected or confirmed to be infected with HIV or AIDS.

Provided, Further, That the protections and privileges provided under this Ordinance may extend to the worker's immediate families and dependents as declared for the purpose of employment benefits, with respect to their access to and benefit from prevention, treatment, care and support measures, their protection and privacy including confidentiality of their HIV-related information and their entitlement to health services.

RULE II

Definition and Construction:

Article 4. DEFINITION OF TERMS: For purposes of this implementing Rules and Regulations, the following terms, words and phrases shall mean and be construed as follows pursuant to Republic Act No. 8563:

1. Acquired Immune Deficiency Syndrome (AIDS): A condition based on signs, symptoms, infections, and cancers associated with the deficiency of the immune system that stems from infection with HIV.

2. Compulsory HIV Testing: An HIV testing of a person attended by the lack of consent, lack of consent of the parents or legal guardians when said person is a minor or in case, use of physical force, intimidation or any other form of compulsion.

Leading by example
Leading by example
We applaud the defining moment in the AIDS response. Thanks to scientific breakthroughs, community action, and political commitment to shared goals, we have a real opportunity to end the AIDS epidemic by 2030. Cities have long been at the forefront of responding to AIDS. Cities now are uniquely positioned to lead Fast-Track action towards achieving the 90-90-90 targets by 2030: 90% of people living with HIV knowing their HIV status, 90% of people knowing their HIV status on treatment, and 90% of people on treatment with suppressed viral load.

It is critical for all new HIV infections and avert AIDS-related deaths, including deaths caused by tuberculosis and other diseases. Everyone in our cities must have access to life-saving HIV and tuberculosis treatment, care and support services.

We can take local actions for global impact. Leveraging our reach, infrastructure and expertise, city leaders can build more equitable, inclusive, prosperous and sustainable futures for all of our people, regardless of age, social and economic status or sexual orientation.

Countries and cities are stepping up to end the AIDS epidemic. Investing in the Fast-Track response together, with a strong commitment to public health and development in the future of our cities that fosters productivity, shared prosperity and well-being, we will support the Fast-Track response to end the AIDS epidemic by 2030.

**Championing HIV**

We commit to develop an action plan and join with a network of cities to make the responses to be faster, smarter and more effective. We will support other cities and learn from each other, as well as from those of you who have led this effort.
