

# Adapting HIV strategies during the COVID19 pandemic

Eamonn Murphy  
Regional Director, Asia and the Pacific  
UNAIDS

*April 2021 presentation to ASHM*

# The 'new normal'- continued efforts are needed to ensure access to HIV services

Comparison of net treatment scale-up in the first 6 months of 2019 and 2020 by country

# Innovation, community solidarity and resilience HIV response in time of COVID-19 pandemic

## Community-led innovations on DSD and MMD

- Home ARV Refill Delivery & Pick-up Assistance Service by “Oplan ARVayanihan” and diversified PrEP services through telemedicine and PrEP delivery by PrEP Pilipinas in Philippines
- Adapting service delivery to meet the needs for PrEP by Center for Applied Research on Men and Community Health (CARMAH) in Viet Nam
- Community ARV dispensing in India, Nepal, PNG, Philippines, and Thailand
- KP-led PrEP service delivery and PrEP MMD in Thailand and Viet Nam
- Take home OST operationalized
- AP Regional review of MMD role out carried out-add link to the report

## Regional community networks amplify the impact of community-led responses to COVID-19

- Report on community led best practices by [ANPUD](#), and best practices community-led supports in advocacy and service delivery document by [APN+](#)
- Youth-friendly crowdsourcing website that pools available information and guidance on COVID-19 by [IATT-YKP](#)
- [APCOM's newsletter](#) serving as a virtual announcement board of available resources for community members
- A series of six feature stories - Dignity Amidst COVID-19: Trans youth leading the response - by [APTN](#) and [Youth LEAD](#)

AVAILABLE TO ALL,  
EVERYWHERE, FREE OF  
CHARGE.

## THE PEOPLE'S VACCINE

The People's Vaccine Alliance is a coalition of organisations and activists united under a common aim of **campaigning for a People's Vaccine' for COVID-19 that is based on shared knowledge and is freely available for all.** A global common good. It is coordinated by Oxfam and UNAIDS.

The People's Vaccine Alliance calls on pharmaceutical corporations and governments to:

- Prevent monopoly on vaccine production and supply
- Implement fair allocation of the vaccine that prioritizes health workers and other at-risk groups in all countries.
- Provide the vaccine free of charge at the point of use.
- Ensure the full participation of the governments of developing countries as well as global civil society in decision-making forums about the vaccines

## Sustainable Development Goals

## Vision

Zero discrimination  
Zero new HIV infections  
Zero AIDS-related deaths

## End AIDS as a public health threat by 2030

### Result Areas

- 1 HIV Prevention
- 2 HIV testing treatment care, viral suppression and integration
- 3 Vertical HIV transmission, pediatric AIDS

### Result Areas

- 4 Community-led responses
- 5 Human rights
- 6 Gender equality
- 7 Young people

### Strategic priority 1 Maximize equitable and equal access to HIV services and solutions

**2025 targets and commitments**  
95% coverage for each affected community across a core set of evidence-based services

### Result Areas

- 8 Fully funded and efficient HIV response
- 9 Integration of HIV into systems for health & social protection
- 10 Humanitarian settings and pandemics

### Applying an inequalities lens to reduce inequalities and confront disparities

### Strategic priority 2 Break down barriers to achieving HIV outcomes

**2025 targets and commitments**  
10-10-10 targets for the removal of societal and legal barriers to accessing services

### Strategic priority 3 Fully resource and sustain efficient HIV responses and integrate into systems for health, social protection, humanitarian settings and pandemic responses

**2025 targets and commitments**  
Resource needs and commitments for the HIV response to advance universal health coverage, pandemic responses and the Sustainable Development Goals

### Cross-cutting issues

1. Leadership, country ownership & advocacy
2. Partnerships, multisectorality & collaboration
3. Data, science, research & innovation
4. Stigma, discrimination, human rights and gender equality
5. Cities, urbanization & human settlements

# END INEQUALITIES. END AIDS. GLOBAL AIDS STRATEGY 2021-2026

## Applying an inequalities lens across the strategic priorities

- Acknowledges the pressing challenges and opportunities, recognizes key shifts are needed to end AIDS.
- Aligned to Decade of Action & makes explicit contributions to advance goals and targets across 10 SDGs
- Keeps people at the centre to ensure they benefit from services, to remove social & structural barriers that prevent people from accessing HIV services
- Calls on governments, development & financing partners, communities & the UNAIDS to identify and address these inequalities
