

HIV and AIDS Data Hub for Asia-Pacific Review in slides Regional overview slides

Last updated: October 2020

Key population size estimates

www.aidsdatahub.org

Female sex workers size estimates

Country	Estimated size	Definition	Females (15-49)	As% of females (15-49)
Afghanistan(2019)	11,237	sold sex (oral, vaginal, anal) in exchange for money, drugs, goods or services in the past 3 months	8,929,462	0.13
Australia(2012)	20,500	Self identify as having a history of sex work	5,565,870	0.37
Bangladesh(2015)	102,260	Females 10+ yrs; who sell sex and contracted by clients at hotel/street/residence/brothel during last year	43,488,027	0.24
Bhutan (2019)	597	Females 18+ yrs who have received cash payment for sex	205,442	0.29
Cambodia(2019)	54,813	Biological females, 15 to 49 years old, who sell sex in exchange of money or goods, in the last 12 months	4,458,265	1.23
China(2013)	2,520,000	Females 15-65 yrs; who have sexual intercourse with males for money(excluding transgender)	374,006,476	0.67
Fiji(2012)	538	Females 18+ yrs; self-identified as engaging in transactional sex (i.e. the provision of sexual services in exchange for cash, goods or service)	224,175	0.24
India(2009)	868,000	Information not available	307,922,110	0.28
Indonesia(2016)	226,791	Females aged 15 years or older who receive money or goods in exchange for anal or vaginal penetrative sex in the last 12 months	70,108,908	0.32
Japan(2013)	700,000	Information not available	26,782,348	2.61
Lao PDR(2019)	15,618	Information not available	1,923,163	0.81
Malaysia(2014)	21,000	Females 18+ yrs; having been paid in cash or kind for penetrative sex within the last 3 months, having more than 1 client in the same period	8,097,825	0.26
Myanmar(2015)	66,000	Females 15-49 yrs; having been paid for sex in cash or kind in the past 12 months	14,679,563	0.45
Mongolia (2019)	6,030	Biological females, aged 15 and over, who exchanged sex for money or gift in the last 12 months	850,979	0.71
Nepal(2016)	49,013	Females 16 years and above, reporting having been paid in cash or kind for sex during the last 12 months. (establishment based, home based and street based)	8,191,447	0.6
Pakistan(2016)	174,101	Females who exchanges sex with others in return for money or benefits, irrespective of site of operation (e.g. street, bars, home, hotel, etc.)	50,898,692	0.34
Papua New Guinea(2019) (Port Moresby, Lae, Mt. Hagen)	48,286	Female 18+ yrs who received money or goods in exchange for sexual services on a regular or occasional basis over the past six months	2,212,709	2.18
Philippines(2019)	80,400	Females, 15 years or older who has accepted payment (cash or kind) in exchange for sex in the past one month	28,058,770	0.29
Sri Lanka(2013)	14,132	Any female who is selling sex in exchange of money or goods.	5,346,351	0.26
Thailand(2016)	129,133	Females 18+ yrs who exchange money or goods for sexual services, either regularly or occasionally within the last 12 months.	17,926,178	0.72
Viet Nam(2019)	86,000	Females who are currently selling sex	25,489,272	0.34

Men who have sex with men size estimates

Country	Estimated size	Definition		As% of males (15-49)
Afghanistan(2019)	10,108	Males who had anal sex with another man in the past 12 months	9,596,723	0.11
Australia(2011)	190,000	Self identify as men who have sex with men	5,622,808	3.38
Bangladesh(2015)	MSM:101,695 MSW: 29,776	MSM: Males 10+ yrs; who had sex with males with consent in the last year regardless of whether they have sex with women or have a personal/social gay or bisexual identity but do not sell sex. MSW: Males who sell sex to other males in exchange of money or gifts in last 3 months	43,789,365	MSM: 0.23 MSW: 0.07
Bhutan (2019)	1,726	Males 18+ yrs who have had anal or oral sex with another man or TG in the last 12 months	240,195	0.72
Cambodia(2019)	87,817	ological males, 15 to 49 years old, who have anal sex with another male in last 12 months including those who find and meet male sex 4,33 artners though online applications.		2.02
China(2013)	3,960,000	Males 15-65 yrs; who have sex with men in recent year	397,300,323	1.0
India(2009)	357,000	Information not available	336,701,558	0.11
Indonesia(2016)	754,310	Biological males aged 15-49 years or older who had sex with a man in the last 12 months	71,539,787	1.05
Japan(2013)	519,721	Information not available	27,870,541	1.86
Lao PDR (2019)	18,902	Information not available	1,945,101	0.97
Malaysia(2017)	140,000	Males 18+ yrs, who had engaged in anal sex with men at least once in the previous six months	9,056,779	1.55
Mongolia(2019)	6,500	Biological males, aged 15 and over, who had anal sex with men in the last 12 months	849,537	0.77
Myanmar(2015)	252,000	Males 15+ yrs; who has had anal sex with another male in the past 6 months	13,922,158	1.81
Nepal(2016)	MSM: 60,333 MSW: 18,287	MSM: Males who have oral and/or anal sex with other biological males, at least once, in the past 12 months. MSW: Males 16+yrs; who had oral and/or anal sex with other males in the past 12 months in exchange for money or other benefits.	5,982,377	MSM: 1.01 MSW: 0.31
Pakistan(2016)	MSM: 832,213 MSW: 55,340	MSM: Male 13+ yrs who has sex with other men as a matter of preference or practice, regardless of their sexual identity/orientation, and irrespective of whether or not they also have sex with women MSW: Males 13+yrs; who undertakes sexual activity with a man in return for money or benefits	53,596,310	MSM: 1.55 MSW: 0.1
Philippines(2019)	MSM: 829,300 MSW: 132,700	MSM: Males 15+ yrs; who had oral or anal sex with a male in the past 12 months. MSW: Males, 15 years or older who had oral or anal sex with a male in the past 12 months and accepted cash or kind in exchange for sex regardless of whether establishment-based or a proportion of males who have sex with males.		MSM: 2.86 MSW: 0.46
PNG (2019)	MSM/TG 35,876	Any person who was born biologically as a man who engaged in oral or anal sex with another man in the past six months	2,322,999	1.54
Sri Lanka(2013)	7,551	All men who have sex with other men as a matter of prevalence or practice, regardless of their sexual identity or sexual orientation.	5,076,615	0.15
Thailand(2016)	MSM: 590,700 MSW: 15,000	MSM: Male 18+, anal or oral sex with male in the past 12 months. MSW: Male 18+ who exchange money or goods for sexual services either regularly or occasionally in the last 12 months	17,568,867	MSM: 3.36 MSW: 0.09
Viet Nam(2019)	200,000	Male 18+ yrs; who have oral or anal sex with another man in the past 12 months	26,232,936	0.76

People who inject drugs size estimates

Country	Estimated size	Definition	Males (15-49)	As% of males (15-49)
Afghanistan (2019)	25,734	Information not available	9,596,723	0.27
Australia (2005)	215,000	Information not available	5,822,784	3.7
Bangladesh (2015)	33,067 (Total) 32,021 (Male) 1045 (Female)	Males who injected drugs within the last 1 year Females who injected drugs within the last 1 year	43,789,365	0.08
Cambodia (2017)	3,202	Biological male at birth, 15-49 years old, who injected drug one or more time in the last month	4,247,759	0.08
China (2013)	1,930,000	Persons who ever injected drugs	397,300,323	0.5
India (2009)*	177,000	Information not available	336,701,558	0.05
Indonesia (2016)	33,492 (Male)	People aged 15 years or older who injected drugs categorized as narcotics in the last 12 months	71,539,787	0.05
Lao PDR (2019)	1,661	Information not available	1,945,101	0.09
Malaysia (2017)	120,000	Males 18+ yrs; who injected drugs in the last 6 months	9,056,779	1.32
Myanmar (2017)	93,000	Males 15+ yrs, who injected drugs for non-medical purposes in the past one month	14,151,246	0.66
Nepal (2016)	30,868	People who inject various drugs into their muscles or veins for the purpose of intoxication in the last 12 months	5,982,377	0.52
Pakistan (2016)	113,776	Persons 15+ yrs; who injected drugs regularly, for non-therapeutic purposes in the last 6 months	53,596,310	0.21
Philippines (2019)	7,400	Males 15+ yrs; who injected drugs for non-medical purposes in the last six months	28,957,687	0.03
Sri Lanka (2013)	423	Persons who are currently injecting drugs	5,076,615	0.01
Thailand (2015)	42,650	People who inject drugs at least once within the last month	17,686,522	0.24
Viet Nam (2019)	189,000	Males 16 years or older, inject drug at least 1 time in the last month	26,232,936	0.72

* India reported 2009 PWID population estimates in latest Global AIDS Monitoring (GAM) 2018 reporting.

Transgender size estimates

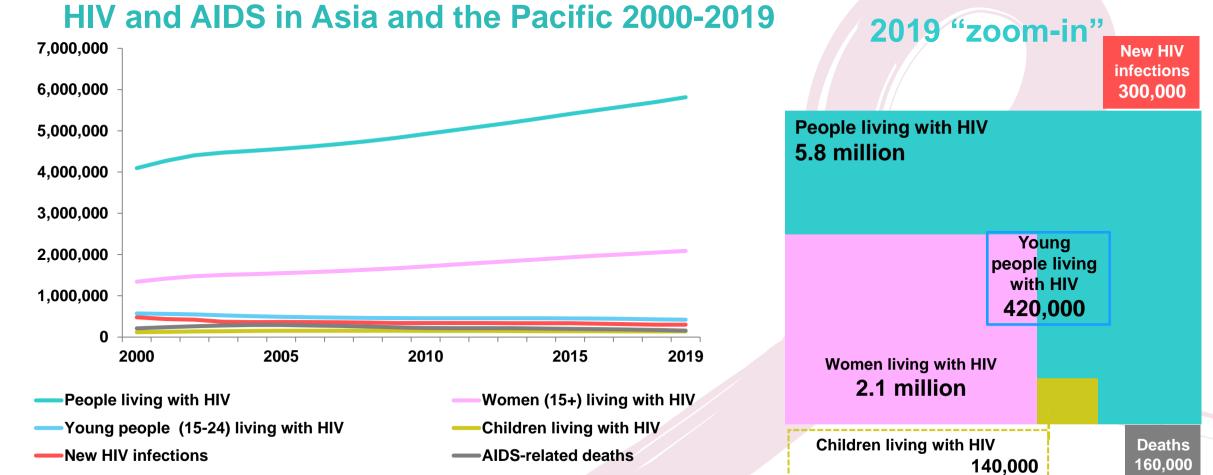

Country	Estimated size	Definition		As% of males (15-49)
Bangladesh(2015)	10,199 (Total) 7,925 (TGSW)	Transwomen 18+ yrs; who identify themselves as belonging to a traditional hijra sub-culture and who maintain the guru- chela hijra hierarchy. They maybe sub-categorized as: Sex Worker Hijra, Badhai Hijra and Radhuni hijra		0.02
Bhutan (2019)	TGW 76 TGM 302	Persons 18 years and older who were assigned a sex at birth that is different from their current gender identity	240,195	0.16
Cambodia(2019)	6,300	TG women who are biologically male at birth, 15-49 years old, and who self identify as female or third gender. This entail dressing up, expressing characteristic, attitudes and behaviour of a woman	4,338,503	0.15
Fiji(2012)	319 (TG SW)	Male-to-female transgender 18+ yrs; self-identified as engaging in transactional sex work (i.e. the provision of sexual services in exchange for cash, goods or service)	235,614	0.14
India(2013)	70,000	Information not available	358,439,876	0.02
Indonesia(2016)	38,928	Biological males aged 15 years or older who identify their gender identity as females	71,539,787	0.05
Lao PDR (2019)	4,627	Information not available	1,945,101	0.24
Malaysia(2014)	24,000	Individuals who are biologically male but with female identity	8,702,286	0.28
Nepal(2016)	21,460	TG women are biological males who have identified themselves as Transgender. A transgender is a male who appears as, wishes to be considered as, or has undergone surgery to become a female.		0.36
Pakistan(2016)	52,646 (TG SW)	Individuals 15+ yrs who identify themselves as transgender and receive money or goods in exchange for sexual services, either regularly or occasionally		0.1
Philippines(2019)	190,700	Born males 15+ yrs; identifies as female, who had oral or anal or vaginal sex with a male in the past 12 months.		0.66
Thailand(2016)	62,800	Men sexually active in last 12 months who express women characteristics e.g. long hair, wearing make-up, breast appearance, not necessarily undergo sex reassignment surgery.		0.36

Need for a greater focus: a considerable proportion of sex workers are under 25 years of age

Unmet HIV and health service needs of young sex workers: programs often do not reach young sex workers (no age disaggregated data)

• Legal policy barriers (i.e. condom policy not favoring unmarried young people, parental consent, existing gender inequality, etc.)

• Need for clarity on policy and programmatic approach for reaching under-18 young people who sell and buy sex

• Need to ensure broader opportunities - health, education and security

Gender-based violence
